<b>Goals</b>	<b>1</b>
<b>Recommendations at a Glance</b>	<b>3</b>
<b>Introduction</b>	<b>13</b>
Background	13
About this document	14
Use of terms	15
<b>Section A. Overarching Issues</b>	<b>21</b>
<b>1. Coordinated Team Approach</b>	<b>23</b>
Dual purposes of the exam	23
Key responders and their roles	23
Quality assurance measures	25
<b>2. Victim-Centered Care</b>	<b>27</b>
Patient priority as an emergency case	27
Patient privacy	27
Exam adapted to patients' needs and circumstances	28
Issues commonly faced by patients from specific populations	29
Importance of victim services within the exam process	33
Presence of personal support persons in the exam room	35
Requests for a responder of a specific gender	35
Explanation of procedures during the exam process	35
Integration of medical and forensic exam procedures	36
Patient safety during the exam process	36
Information patients can review at their convenience	36
Physical comfort needs of patients	37
<b>3. Informed Consent</b>	<b>39</b>
Seeking informed consent as appropriate	39
Obtaining consent from specific populations	40
<b>4. Confidentiality</b>	<b>43</b>
Scope and limitations of confidentiality	43
Building understanding of confidentiality issues	43
Impact of Federal privacy laws	44
Difficulties in maintaining confidentiality	44
<b>5. Reporting to Law Enforcement</b>	<b>45</b>
Making the decision to report	45
Consequences of reporting	46
Alternatives to standard reporting procedures	46
Promoting a victim-centered reporting process	47

<b>6. Payment for the Examination under VAWA .....</b>	<b>49</b>
VAWA provisions related to exam payment .....	49
<b>Section B. Operational Issues .....</b>	<b>51</b>
<b>1. Sexual Assault Forensic Examiners .....</b>	<b>53</b>
Specific knowledge, skills, and attitudes .....	53
Minimum standards for advanced education and clinical requirements .....	55
<b>2. Facilities .....</b>	<b>57</b>
Obligation to serve patients .....	57
Use of specially educated and clinically prepared examiners .....	57
Optimal site locations .....	58
Basic requirements .....	58
Patient transfers .....	59
<b>3. Equipment and Supplies .....</b>	<b>61</b>
Availability of specific equipment and supplies .....	61
Cost barriers .....	62
<b>4. Sexual Assault Evidence Collection Kit .....</b>	<b>65</b>
Minimum guidelines for contents .....	65
Standardized kits .....	66
<b>5. Timing Considerations for Collecting Evidence .....</b>	<b>67</b>
Importance of the history and exam findings .....	67
Prompt exam to minimize loss of evidence .....	67
Availability beyond 72 hours after the assault .....	67
Decisions made on a case-by-case basis .....	67
Resources for responders .....	68
<b>6. Evidence Integrity .....</b>	<b>69</b>
Policies to dry, package, label, and seal evidence .....	69
Evidence transfer policies .....	69
Storage policies .....	69
Documentation of evidence .....	70
<b>Section C. The Examination Process .....</b>	<b>71</b>
<b>1. Initial Contact .....</b>	<b>73</b>
Consensus among agencies regarding procedures .....	73
Essential activities .....	73
<b>2. Triage and Intake .....</b>	<b>77</b>
Priority cases .....	77
Acute care needs .....	77
Alerting examiners .....	77
Contacting advocates .....	78
Safety concerns upon arrival of patients at the site .....	78
Immediate medical and mental health interventions .....	78

<b>3. Documentation by Health Care Personnel .....</b>	<b>79</b>
Completion .....	79
Education for examiners .....	79
Mechanisms to ensure accuracy and objectivity .....	79
<b>4. The Medical Forensic History .....</b>	<b>81</b>
Coordination of history taking and investigative interviewing .....	81
Presence of advocates during the history .....	82
Patient needs addressed prior to and during history .....	82
Obtaining the history.....	83
<b>5. Photography .....</b>	<b>85</b>
Extent .....	85
Photographers and equipment .....	85
Patient comfort and privacy .....	85
Explanation of photography procedures .....	86
Taking photographs .....	86
<b>6. Exam and Evidence Collection Procedures .....</b>	<b>89</b>
Forensic purpose of the exam .....	89
Collecting as much evidence as possible .....	89
Issues related to consent to sexual contact .....	89
Testing of biological evidence .....	90
Exposure to infectious materials and evidence contamination .....	90
Importance of semen evidence .....	91
Addressing patients' needs and concerns .....	91
Explanation of exam and evidence collection procedures .....	91
Conducting the exam and documenting findings .....	91
Evidence to submit to the crime lab for analysis .....	93
Other evidence .....	99
Medical specimens separate from forensic specimens .....	99
<b>7. Drug-Facilitated Sexual Assault .....</b>	<b>101</b>
Training and development of policies .....	101
Response to voluntary use of drugs and/or alcohol .....	101
Circumstances in which testing may be indicated .....	102
Explanation of testing procedures .....	102
Collecting samples .....	103
Toxicology labs .....	104
Preservation of evidence and chain of custody .....	104
<b>8. STI Evaluation and Care .....</b>	<b>105</b>
Information on STIs .....	105
STI testing .....	105
Prophylaxis against STIs .....	106
Followup care .....	107
Concerns about HIV infection .....	107

<b>9. Pregnancy Risk Evaluation and Care</b> .....	<b>111</b>
Probability of pregnancy .....	111
Pregnancy testing .....	111
Treatment options .....	111
<b>10. Discharge and Followup</b> .....	<b>113</b>
Medical discharge and followup care .....	113
Coordination among responders prior to discharge .....	114
<b>11. Examiner Court Appearances</b> .....	<b>117</b>
Broad education on court appearances .....	117
Prompt notification for examiners .....	117
Pretrial preparation .....	118
Feedback on testimony .....	119
<b>Bibliography</b> .....	<b>121</b>
<b>Appendix A. Developing Customized Protocols: Considerations for Jurisdictions</b> .....	<b>125</b>
<b>Appendix B. Creation of Sexual Assault Response Teams</b> .....	<b>129</b>
